Company Profile

ABOUT US / OUR BUSINESS

ChinaCache is the leading total solutions provider of Internet content and application delivery services in China, accounting for 53% market share in terms of revenue in 2009, according to iResearch. We provide a portfolio of services and solutions to businesses, government agencies and other enterprises to enhance the reliability and scalability of their online services and applications and improve end-user experience.

Our nationwide service platform which consists of our network, servers and intelligent software, is designed to handle planned and unplanned peaks without significant upfront and ongoing capital outlay and other investments on the part of our customers.

We began providing content and application delivery services in China in 2000 and were the first company that is not a telecommunications carrier to obtain from the Ministry of Industry and Information Technology of China, a nationwide operating permit to provide content and application delivery services.
