Company Profile

ArQule is a biopharmaceutical company engaged in the research and development of targeted therapeutics to treat cancers and certain rare diseases. Our mission is to discover, develop and commercialize novel small molecule drugs that will dramatically extend and improve the lives of patients in areas of high unmet need. ArQule is delivering on the potential of precision medicine by providing its patients with novel therapies for multiple hard to treat indications and its shareholders with a focused, highly efficient and cost effective research and development strategy.
