Company Profile

Splunk was founded to pursue a disruptive new vision: make machine data accessible, usable and valuable to everyone. Machine data is one of the fastest growing and most pervasive segments of "big data"-generated by websites, applications, servers, networks, mobile devices and the like that organizations rely on every day. By monitoring and analyzing everything from customer clickstreams and transactions to network activity and call records--and more, Splunk turns machine data into valuable insights no matter what business you're in. It's what we call operational intelligence. ... [\(more\)](#)
