Company Profile

Founded in 1998, Fanhua Inc. (formerly known as "CNinsure Inc.") is a leading independent online-to-offline ("O2O") financial services provider. Through our online platforms and offline sales and service network, we offer a wide variety of financial products and services to individuals and businesses including property and casualty and life insurance products, wealth management products, and consumer finance services. We also provide insurance claims adjusting services, such as damage assessments, surveys, authentications and loss estimations, as well as value-added services, such as emergency assistance. Fanhua Inc. was listed on Nasdaq on October 31, 2007. In December 7, 2016, Fanhua changed its ticker symbol from "CISG" to "FANH".

We have invested substantial resources in building up our online platforms, including 1) CNpad, a mobile transaction platform which provides our agents with access to a broad range of auto insurance, life insurance and wealth management products and enables them to obtain quotes for multiple insurance policies within minutes and purchase policies for their clients through their mobile devices; 2) eHuzhu, a non-profit online mutual aid platform in China. eHuzhu provides low-cost and effective alternative risk-protection programs on a mutual aid basis among program members. We're committed to fulfilling our corporate social responsibility while actively bringing value to our shareholders, employees and customers; 3) Baoxian.com (www.baoxian.com), an online entry portal for consumers to directly compare and purchase hundreds of health, accident, travel and homeowner insurance products underwritten by popular domestic and foreign insurance companies operating in China.

Our professional advisors and claims adjustors service clients spread across 29 provinces in China, including most economically developed regions and cities. Our extensive sales and service network and our online platforms are complementary, enabling our customers to benefit from face-to-face advice, the convenience of online shopping, and personalized services.

Our commitment to providing the highest quality of service has won the trust of our clients and business partners. In November, 2015, Fanhua was once again named Insurance Intermediary of the Year 2015 at the 10th China Insurance Innovation Award Ceremony. In July, 2016, Fanhua was ranked No.20 among the top 20 global insurance brokers selected by A.M. Best Co., one of the most prestigious insurance rating agencies, based on net revenues in 2015. Fanhua was the only Asian broker on the list. As of December 31, 2016, we worked with over 70 insurance underwriters, including the leading domestic and foreign-invested insurance companies operating in China.

We aspire to build the largest 1) transaction-enabled entry portal for insurance and wealth management products; 2) third party mobile insurance transaction platform; 3) public service platform for the insurance industry; 4) team of insurance advisors; and 5) mutual insurance organization. Opportunities for independent insurance brokers are expanding rapidly due to the growth of the mobile internet. By leveraging the strength of our offline network, the talent of our team, our capital position and our strong relationships with product suppliers developed over the past decade, we are well-positioned to achieve our strategic goal, deliver sustainable strong profitability and create long term shareholder value.
