## Company Profile

Covisint provides an open, developer-friendly, enterprise-class cloud platform to facilitate the rapid development and deployment of Internet of Things (IoT), Identity Management (IdM), and B2B collaboration solutions. Our platform enables users to securely identify, authenticate and connect users, devices, applications and information, and has been successfully operating globally at enterprise scale for over 12 years.

Today, the Covisint platform enables more than 3,000 organizations to connect with more than 212,000 business partners and customers, and supports more than \$4 b... [\(more\)](#)
