## Company Profile

# Corporate Profile

Galectin Therapeutics is a biotechnology company focused on discovery and development. We apply our leadership in galectin science and drug development to create new therapies to improve the lives of patients with chronic liver and skin diseases and cancer. Drug candidates based on our unique carbohydrate technology target galectin proteins, which are key mediators of biologic and pathologic function.

Galectin Therapeutics is pursuing therapies for indications in which galectins have a demonstrated role in the pathogenesis of directly involved in... [\(more\)](#)
