## Company Profile

We are a global, high-growth diagnostics company committed to improving patient care by providing advanced, innovative tests in the field of immunology. Our proprietary T-SPOT<sup>®</sup> technology platform allows us to measure the responses of specific immune cells, known as T cells, to inform the diagnosis, prognosis and monitoring of patients with immunologically controlled diseases. T cells are a central component of the human body's immune system, and are implicated in the control and progression of many medical conditions, including certain types of infectious diseases, ...
