Company Profile

Eleven Biotherapeutics, Inc. is a late clinical-stage company advancing a broad pipeline of novel anti-cancer agents based on our Targeted Protein Therapeutics (TPTs) platform. Our TPTs genetically combine targeting antibody fragments with cytotoxic protein payloads to create a single fusion protein through Eleven's proprietary one-step manufacturing process.

We have designed TPTs with the potential to offer:

- Multiple advantages in treating cancer over traditional antibody drug conjugates.
- Effective tumor targeting with cancer cell-killing... [\(more\)](#)
