## Company Profile

We are an ophthalmic device company that has developed and is currently marketing a proprietary optical lens implant for treating presbyopia, the age-related loss of the ability to focus on near objects. Our lens, the Presbia Flexivue Microlens™, is a miniature lens designed to be surgically implanted in a patient's eye to improve that patient's ability to see objects at close distances. Our current strategy is to continue to commercialize the Presbia Flexivue Microlens™ in certain strategic countries where we currently have marketing approval and t... [\(more\)](#)
