## Company Profile

Agile Therapeutics is a forward-thinking women's healthcare company dedicated to fulfilling the unmet health needs of today's women. Our product candidates are designed to provide women with contraceptive options that offer freedom from taking a daily pill, without committing to a longer-acting method.

Our lead product candidate, Twirla® (ethinyl estradiol and levonorgestrel transdermal system), also known as AG200-15, is a once-weekly prescription contraceptive patch. Twirla is based on our proprietary transdermal patch technology called Skinfusion® which is designed to provide advantages over currently available patches and is intended to optimize patch adhesion and patient wearability.
